## **RALLY**

ACROSS BONLIEU, LAKE SIDE  
(PROMENADE JACQUET)**

Called by : La Barbe!, Les Etincelles, Les Intervalles,  
Projectiles, SPIAC-CGT, SNTPT, SIPMCS-CNT

**LA BARBE !**

**These past few months**, the animation industry crisis has only gotten worse. Production and job numbers keep plummeting ; many studios barely avoid bankruptcy when they don't go out of business altogether. **No worker is safe.** Meanwhile, animation schools are still flourishing, without any form of government control.

**Working conditions have deteriorated for us employees**, our wages are stagnating in spite of galloping inflation. We have regularly been treated like a disposable and easily exploited workforce by employers, a number of which simply do not abide by labor laws.

Because **we deserve decent working conditions**, and to defend the jobs we love, we are choosing to **raise our heads**, following in the steps of the La Barbe! french collective of workers, recently and brutally sacked.

In order for this unbearable situation to change, **let's rally together :**

- Against **toxic management** and labor laws breaches
- For **improved working conditions** and **pay rises**
- Against **underfunded projects** at the expense of workers
- Against **public funding cuts** in culture

**UNITED, WE ARE STRONGER. JOIN OUR ACTION!**
